ADEYEMI OLUWATOMI

Cloud Engineer
UX/UI Designer

PERSONAL BACKGROUND

I'm a Professional Cloud Engineer, a DevOps practitioner, and a UX/UI Designer with 3+ years of experience. I also have a background as a first-level IT support and some basic knowledge in Html, CSS, JavaScript, and security(§34a).

Since Transitioning into Cloud Engineering| Microsoft Azure| and participating in various projects, designing, analyzing, customizing, developing, and Implementing scalable resilient architectures that leveraged Azure services to meet performance and availability requirements using Microsoft Azure cloud platform Resources, I became captivated by the power and versatility of Microsoft Azure. Since then I have dedicated myself to mastering and becoming more proficient in developing cloud-native architectures, microservices, and containerization using tools like Docker and Kubernetes Azure service.

Having to know communication is a key to success, and being Proficient in multiple languages I think of myself as a good sociable, and interactable person who's able to work in teams and empathize with people feeling and emotions. I look forward to connecting with like-minded professionals, making new acquaintances, and bringing my expertise and passion to a dynamic and innovative organization where I can make a significant impact and continue to grow both personally and professionally

WORK EXPERIENCE

SQL Server Database Administrator

Utiva | 01/2023 – 06/2023 (Utiva Europe)

- Developed and deployed cloud applications on the Microsoft Azure platform, utilizing Azure App Services, Azure Functions, and Azure Storage.
- Implemented secure authentication and authorization using Azure Active Directory for access control in applications.
- Designed and implemented scalable architectures, leveraging Azure's auto-scaling and load-balancing capabilities
- Integrated cloud applications with other Azure services, such as Azure Cosmos DB for data storage and retrieval.
- Collaborated with cross-functional teams to define project requirements, architecture, and timeline
- Conducted code reviews, performed unit testing, and resolved bugs to ensure high-quality deliverables.
- Assisted in performance optimization and troubleshooting of cloud applications, identifying and resolving bottlenecks.
- Actively stayed updated with the latest trends and advancements in Azure cloud technologies and shared knowledge with team members.

Cloud Engineer

ITECH Data Services | 01/2022 - 01/2023

- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Azure DevOps, enabling seamless and automated application deployment.
- Developed and deployed web applications on Microsoft Azure, utilizing services like Azure App Service, Azure SQL Database, and Azure Storage.
- Utilized infrastructure-as-code (IaC) techniques to define and provision Azure resources, improving deployment efficiency and reducing manual errors
- Collaborated with cross-functional teams to design and implement scalable and secure cloud architectures for client projects, ensuring optimal performance and availability.
- Conducted security assessments and implemented robust security measures to protect cloud-based applications and data

Devops

Just Eat Takeaway 04/2021 - 12/ 2022

- Provided technical support to customers who encountered issues with Azure cloud services, such as virtual machines, storage, and networking by identifying the problem, troubleshooting, and providing a resolution in a timely manner.
- Managing support tickets; I prioritized tickets according to their severity and escalate them to the appropriate team as needed. I also had to ensure that customer issues are resolved within the Service Level Agreement (SLA) time frame
- Optimized cloud-based applications and services for performance and scalability using monitoring and logging solutions, resulting in a 40% increase in application availability and a 15% reduction in downtime.
- Developed and maintained cloud-based disaster recovery plans, ensuring business continuity in the event of a disaster and reducing recovery time by 60%
- Researched and evaluated new cloud technologies and services, implementing new solutions that improved team efficiency by 25% and reduced costs by 20%

Ux/UI Designer

Udemy (Movie streaming App project) | 06/2020 - 11/2020

- Collaborated with a team of designers and developers to redesign the user interface of an existing cinema streaming app, enhancing its visual appeal and usability.
- Conducted competitor analysis to identify trends and best practices in the cinema streaming industry, incorporating these insights into the design concepts.
- Translated user requirements into wireframes, interactive prototypes, and high-fidelity designs, working closely with stakeholders to gather feedback and iterate on the designs.
- Created wireframes, interactive prototypes, and visual designs using industry-standard design tools, ensuring a seamless and delightful user experience.
- Developed a comprehensive information architecture and navigation structure for the app, ensuring easy discoverability of content and intuitive user flows.
- Implemented responsive design principles to ensure a consistent and optimized experience across multiple devices, including mobile phones, tablets, and smart TVs.

Ux/UI Designer(Apprenticeship)

Careerfoundry (Banking App Project) | 01/2020 - 05/2020

- Designed a mobile banking application with a focus on enhancing user engagement and simplifying financial transactions.
- Conducted user research to understand user pain points and preferences resulting in a streamlined and intuitive interface.
- Redesigned a company website to improve the user experience and align with modern design trends.
- Conducted usability testing and incorporated user feedback to optimize the navigation and content structure

CUSTOMER SUPPORT/FOOTPARTROL

JOB&TALENT | 06/2019 – 11/2019(Lime Escooter Germany)

- Repairing technical issues and re_balancing of E-scooter
- App diagnosing and reconfiguration of E-scooter as the administrative user
- Assisted customers in troubleshooting e-scooter technical problems, including battery, connectivity, and app-related issues.
- Updating information and Educating customers about e-scooter features, safety guidelines, and best practices for optimal riding experiences
- Responded to rider concerns or complaints in a professional and customer-focused manner

IT SUPPORT 1ST LEVEL SUPPORT

Allgeier Experts | 01/2019 – 03/2019(Atos Germany)

- Provided first-level technical support to end-users, assisting with hardware and software issues, account setups, and password resets
- Responded to support requests in a timely manner and documented all interactions in the ticketing system.
- Troubleshot and resolved hardware problems, including diagnosing faulty components and coordinating repairs or replacements.(i.e windows,ios,awayprinters,
- Assisted with software installations, updates, and configurations for both desktop and mobile devices.
- Conducted remote troubleshooting sessions to resolve software issues and guide users through technical procedures.
- Collaborated with IT team members to escalate complex issues and follow up on problem resolution
- Provided clear and concise instructions to users, empowering them to resolve minor technical issues independently.
- Kept up-to-date with the latest technology trends and industry developments to enhance technical knowledge

Ux/UI Designer(project)

(E-gamers_commerce Web Project) |05 2018 -11/ 2019

- Collaborated with the hair salon's marketing team to understand the brand identity and target audience, translating their vision into a visually captivating website design
- Conducted user research and created user personas to gain insights into the preferences and behaviors of the salon's target customers, ensuring the design catered to their needs.
- Developed wireframes and interactive prototypes to visualize the website's structure and user flows, iteratively refining the design based on user feedback and stakeholder input.
- Created high-fidelity visual designs that aligned with the salon's brand identity
- Conducted usability testing sessions to evaluate the effectiveness of the redesigned website, incorporating user feedback to optimize the user experience and address any pain points.

Ux/UI Designer(poject)

Aitechma(E_commerce web project) | 2015- 2018

- Conducted user research and analysis to gain insights into the preferences and behaviors of online shoe shoppers, integrating these findings into the design process.
- Developed wireframes, interactive prototypes, and user flows to visualize the website's structure and navigation, iteratively refining the design based on usability testing and stakeholder feedback.
- Created high-fidelity visual designs, incorporating appealing color schemes, typography, and product showcases, to captivate users and highlight the unique selling points of the shoes
- Conducted usability testing sessions to evaluate the effectiveness of the redesigned website, incorporating user feedback to optimize the user experience and address any pain points.

CUSTOMER SERVICE

Adecco| 08/2014 – 12/2015 (Le West UK)

- Assisted patients and healthcare professionals with inquiries regarding medical supply orders, delivery schedules, and product information
- Responded to support requests via emails, calls, and documented all interactions in the ticketing system.
- Coordinated with logistics teams to ensure timely delivery of medical supplies and equipment.
- Handled customer complaints and concerns with empathy and professionalism, aiming for swift resolutions

PREVIOUS EDUCATION

Cloud Engineer(Azure) Utiva Europe

From 01/2023 - 06/2023

- Introduction to Cloud Computing.
- Azure Infrastructure Deployment:p Services, Azure Functions, Azure Storage, Azure Cosmos DB,
- Application Development in Azure
- Azure Data Management:
- Security and Monitoring in Azure
- Databases – Database Types, SQL, Use Cases
- Azure Kubernetes and Containers
- Terraform

UX/UI DESIGNER CareerFoundry(BootCamp)

From 10/2020 - 03/2021

- 6 months intensive for UX designers
- Fundamentals & Methods, User research & Usability testing
- Wireframes & prototyping, Mockups & Designing
- Documentaion & Delievires
- Portfolios

UX/UI DESIGNER Aitechma IT (Training)

From 01/2013 - 01/2014

- Introduction to Mass Communication
- Journalism
- Broadcasting
- Public Relations
- Advertising & Digital Media
- Media and Society
- Research Methods in Mass Communication

Masss Communication University of Lagos

From 01/2010- 03/ 2012

- Introduction to Mass Communication
- Journalism
- Broadcasting
- Public Relations
- Advertising & Digital Media
- Media and Society
- Research Methods in Mass Communication

Senior High School (Jextoban)

- Class , graduated in 2009

Junior High School (Komforta)

- Class , graduated in 2005
